Service ID	Service Name	Version	Date
EDB	Pre-registration of export declaration (Call up)	1.2	2015/09

1. Outline of Service

   This service (EDB) provides a function to call up the information registered in the "Pre-registration of export declaration (EDA)" service from the retrieval before altering the information by EDA.

   It is also available to call up the manifest information or invoice/packing list information registered in the system.

   Refer to appendix "State Change Diagram".
   - State Change Diagram (Declaration on Export declaration-1)
   - State Change Diagram (Declaration on Export declaration-2, Direct payment or Payment by deposit)
   - State Change Diagram (Declaration on Export declaration-3, Preliminary declaration)
   - State Change Diagram (Declaration on Export declaration-4, Direct shipment)

2. Users

   Refer to appendix "List of MACCS Online Services".

3. Restrictions

   None.

4. Input Information

   Refer to appendix "Input Data Element", "Screen Image".

5. Function Specifications

   5.1. Authority Check

      (1) The user shall be registered in the system.
      (2) When the declaration No. is entered, the user must be the same user, who entered data element registration, or the planned declarant.
      (3) When the Export control No. is entered, it shall be the same as the customs broker, for whom Sea cargo information is registered, or as the planned declarant registered in Sea cargo information.
      (4) When the AWB No. is entered, when Export air cargo information is registered and when the customs clearance trustee is specified, it shall be the same as that of the user of the customs clearance trustee.
      (5) When the Electronic invoice receipt No. is entered, it shall be either of the following A or B:
         (A) The input user shall be either of the following:
            - The customs broker who is registered in Invoice packing list information
            - The input user of IVA service who is registered in Invoice packing list information
         (B) The first 10 digits of the exporter code that is registered in the Invoice packing list information shall be the same as the first 10 digits of the exporter code that is registered in the User information of input user.

   5.2. Input Data Element Check

      Refer to appendix "Input Data Element".

5.3. Table Data Check
